

# Doctor Night

## Dinner Shopping List:

Homemade pizza supplies:

Dough, sauce, cheese, toppings

## Activity:

Play Operation

## Craft:

Doctor kit

Supplies listed below

## Dinner & Dessert: Stethoscope Pizza

If you aren't super confident to make your own pizza dough, purchase canned or bagged dough from your local store. Check at locally owned pizza shops and you may be able to purchase a serving of their dough...this is a HUGE score if they will sell it to you. Shape dough into the shape of a stethoscope or a big shot. Note: this will not be the prettiest pizza but it's fun. If you do a stethoscope, the round portion at the end and the connection point in the middle is perfect to make into the typical pizza with cheese and toppings. Make the 'tubing' skinny enough to turn out like breadsticks.

## Craft: Doctor Kit

Make your own doctor kit by gathering household supplies into a bag. A zippy bag works great to hold all the doctor supplies and can then be stored in the car as an emergency first-aid kit.

Make sure to have some or all of the following items in your bag:

Cotton ball	q-tips	band-aids – multi size	antibiotic ointment	gloves
Roller bandage	gauze	thermometer	hydrocortisone cream	tweezers

## Activity: Operation

See who has the steadiest hand as you battle it out in the age old surgical game.
